

## Green Tea With A Difference

Posted on July 30th, 2008 by Rossella Frigerio

The benefits of green tea are innumerable, and this delicate drink is renowned for being a powerful anti-oxidant as well as conducive to lowering the risk of heart disease. Originally cultivated in Asia, it was initially used for medicinal purposes and used to cure everything from indigestion to fever. Today, green tea is drunk everywhere from Honolulu and Istanbul to New York and Paris.

Yet what perhaps many of us don't know is that for the true benefits of this fragrant tea to be achieved, at least 4 to 8 cups a day need to be drunk. Unless you enjoy the privilege of a personal assistant, this means that you would need to bring an electric kettle (or alternatively a flask) everywhere you went—not exactly your everyday bottle of Evian.

So the fabulous people over at [Teavigo®](#) have created the perfect solution that combines the best of both worlds. Purveyors of all things natural, balanced with respect and deep knowledge of ancient traditions and wisdom, they have created a revolutionary range of green tea products designed to provide you with easy and effective access to the benefits of green tea—minus the portable electric kettle (and flask).

Christopher Kane has already become one of their biggest fans, remarking that “I have a hectic lifestyle and like many people I can find it hard to find the time to take care of myself. Teavigo® fits into my life easily and I feel good knowing that I am taking steps to look after my health.”

Their products may be purchased from their [online boutique](#) at truly light prices—their Pastilles cost a mere £4/€5 per pack, whilst their apple-lemon flavoured sticks cost just £15/€15 . Discover the world of Teavigo, and embrace a truly unique approach to wellness.
